

Inbound Traffic

Sample

Local-only traffic:
unmetered

Local-only traffic includes all Gladstone, Darkwing and Oregon email; Duckweb use; Blackboard use; and even all "off campus" web traffic that goes via the University's proxy server

Multicast traffic:
unmetered

Hard Ceiling on Total Resnet
Kazaa/Morpheus
P2P Traffic: 256Kbps

Limit on Each Individual Resnet
Kazaa/Morpheus
User's
P2P Traffic: 56Kbps
(modem-like service)

Hard Ceiling on Total Resnet
Gnutella
P2P Traffic: 256Kbps

Limit on Each Individual Resnet
Gnutella User's
P2P Traffic: 56Kbps
(modem-like service)

Hard Ceiling on Total Resnet
Hotline
P2P Traffic: 256Kbps

Limit on Each Individual Resnet
Hotline User's
P2P Traffic: 56Kbps
(modem-like service)

Identified low priority applications (if Resnet runs out of bandwidth, these are the apps whose bandwidth will get reduced first)
